David:

Will you be sending our paper out to the CAG?

Ella

In a message dated 4/18/2012 1:19:39 P.M. Eastern Daylight Time, Kluesner.Dave@epamail.epa.gov writes:

Carol & CAG Members:

EPA has reviewed the CAG's draft request for technical assistance and made some suggested edits.

This is a work in progress and for discussion tomorrow night at the CAG meeting. Our recommendation is to have a thorough deliberation and careful thought placed in developing the request in order to maximize the outcome for the CAG. Also, as you will notice in the attached, the first item was removed altogether because of its overly broad scope and the likelihood that EPA has already in existence the very information being sought. Again, let's discuss. Thanks Carol and CAG members for taking the first stab at this.

**Subject:** Draft of TASC Request

After some input, I have a final draft of our TASC. You can forward comments to me if you have them, and hopefully we can finalize our request ASAP.

Sorry that I sent un earlier draft that had not been reviewed.

Carol
